

For a wide range of applications

Signode plastic strapping is manufactured for use with both hand tools and high-production power strapping machines.

All types have controlled surface properties that minimize tensioning effort, increase tension transmission around corners and improve operating efficiency. All are split-resistant to increase reliability in tools and power equipment.

Strap Name		Part Number	Colour	Surface	Width (mm)	Thickness (mm)	Ave Break Strength (N)	Coil ID (mm)	Coil Width (mm)	Coil Length (m)	Gross Coil Weight (kg)	Coils per pallet
